PROJECTS

JOB BLOOM – Job Portal Platform | React.JS, Node.JS, MONGODB, Express.JS Feb – June 2025

- Built a full-stack job portal using MongoDB, Express.js, React.js, and Node.js, enabling users to register, post jobs, and apply for opportunities in real time
- Designed an intuitive and responsive UI with React.js, offering job search filters, dynamic listings, and personalized dashboards for job seekers and employers
- Implemented secure RESTful APIs and JWT authentication for seamless user experience, data protection, and role-based access control across the platform

EAT WITH AMIT – Restaurant Reservation | MERN, Tailwind CSS Sep – Jan 2024

- Developed a full-stack restaurant reservation platform using MongoDB, Express.js, React.js, and Node.js, allowing users to book tables online in real time
- Implemented secure user authentication and role-based access for customers and admins to manage reservations and availability
- Designed an intuitive UI with React for smooth navigation, dynamic table booking, and responsive design across all devices

AV CREATION – E-Commerce | JAVA, SQL, JAVASCRIPT Jan – July 2024

- Developed a full-stack e-commerce website using Java, SQL, HTML, CSS, and JavaScript, offering product browsing, cart management, and secure checkout
- Built a responsive and user-friendly interface, ensuring smooth navigation and cross-device compatibility for an enhanced user experience
- Implemented robust backend and database systems for user authentication, product management, and order processing with real-time functionality

SKILLS

- **Programming Languages:** Java | Python | JavaScript
- **Web Technologies:** HTML5 | CSS3 | React.js | Node.js | Express.js | RESTful APIs | JWT Authentication
- **Databases:** MongoDB | MySQL | SQL
